ביטן את ביטן — V1 Master Plan

Website Architecture & Build Specification

Version: 1.0 | **Date:** February 2026 **Status:** Pending Approval → Then handoff to Claude Code **Stack:** Next.js (TypeScript) + Tailwind + Sanity CMS → Vercel

---

A. Final Sitemap + URL Map

URL Strategy Decision

English slugs for all routes. Hebrew slugs encode to unreadable percent-encoded strings (`/%D7%A9%D7%99%D7%A8%D7%95%D7%AA%D7%99%D7%9D/`), which break in analytics dashboards, email clients, CRM tools, and social shares. English slugs are standard across leading Israeli professional sites (KPMG.co.il, AccountX.co.il, Grant Thornton Israel). Google indexes page content and hreflang, not slug language — zero SEO penalty.

Full Page Map

Page	URL	Source	Notes
דף הבית	`/`	Hardcoded layout + CMS blocks	Scroll journey, anchored sections
אודות	`/about`	CMS (SiteSettings + Authors)	Partner bios, values, firm story
שירותים — Hub	`/services`	CMS (Services collection)	Grid of 7 service cards
שירות: הנהלת חשבונות	`/services/bookkeeping`	CMS	Individual service page
שירות: דוחות כספיים	`/services/financial-reports`	CMS	
שירות: ייעוץ מס ותכנון מס	`/services/tax-advisory`	CMS	
שירות: מיסוי מקרקעין	`/services/real-estate-tax`	CMS	
שירות: ייעוץ עסקי ופיננסי	`/services/business-advisory`	CMS	

Page	URL	Source	Notes
שירות: ייצוג מול רשויות	/services/tax-representation	CMS	
שירות: שירותים נוספים	/services/additional	CMS	Overflow bucket
מרכז ידע — Hub	/knowledge	CMS (Articles + Guides)	Filterable grid, search, featured
מרכז ידע: קטגוריה	/knowledge/category/[slug]	CMS (Category)	e.g., /knowledge/category/income-tax
מרכז ידע: תגית	/knowledge/tag/[slug]	CMS (Tag)	e.g., /knowledge/tag/vat
מרכז ידע: מאמר	/knowledge/[slug]	CMS (Article)	e.g., /knowledge/urban-renewal-tax-exemption
מרכז ידע: מדריך	/knowledge/guides/[slug]	CMS (Guide)	Longer-form, evergreen
מרכז ידע: כלים	/knowledge/tools	Hardcoded + CMS	Calculator links, external tools
שאלות נפוצות	/faq	CMS (FAQ collection)	Accordion, grouped by topic
צור קשר	/contact	CMS (SiteSettings) + form	WhatsApp + phone + short form
מדיניות פרטיות	/privacy	CMS or static	Legal requirement
תנאי שימוש	/terms	CMS or static	Legal requirement

Homepage Anchored Sections

The homepage uses scroll anchors for deep-linking and tracking:

Anchor	Target
/#hero	Hero section
/#services	Services grid
/#process	How we work
/#about	About teaser
/#knowledge	Featured articles
/#faq	FAQ accordion
/#contact	CTA block

Knowledge Center: Categories + Tags

Categories (top-level, mutually exclusive per article):

Category (Hebrew)	Slug	Covers
מס הכנסה	income-tax	Income tax rules, deductions, rates, annual returns
מע"מ	vat	VAT regulations, invoicing, Israeli invoice law
ביטוח לאומי	national-insurance	NII payments, calculations, obligations
מיסוי מקרקעין	real-estate-tax	Capital gains, purchase tax, exemptions
דיני עבודה ושכר	labor-law	Employment law, payroll, employee rights
ייעוץ עסקי	business-advisory	Structuring, cash flow, planning
עדכוני חקיקה	regulatory-updates	New laws, temporary orders, circular letters

Tags (many-to-many, cross-cutting):

Examples: עוסק-מורשה, חברה-בעמ, עצמאי, הוראת-שעה, פינוי-בינוי, תמא-38, חשבונית-ישראל, הצהרת-הון, החזר-מס, דוח-שנתי

Tags use Hebrew display names in UI but English slugs in URLs.

B. Homepage Section Map (Scroll Journey)

Section 1: Hero

Property	Value
Purpose	Immediate trust + clarity + primary conversion
Background	Navy (`--color-primary`)
Content	H1: "המומחים הפיננסיים של העסק שלכם" (or similar — CMS-editable). Subtitle: 1-2 lines positioning the firm. Gold underline below H1.
CTA	Two buttons: WhatsApp (primary/gold CTA) + "חייגו אלינו" (secondary/outlined white). WhatsApp links to `https://wa.me/972527221111`
Trust micro-signals	Small text below CTAs: "30+ שנות ניסיון · דור שני של רואי חשבון · תל אביב"
CMS-driven?	Yes — headline, subtitle, trust text, CTA labels all editable in SiteSettings
Visual	No stock photo. Optional subtle geometric pattern (woven/abacus motif) on left side, or pure solid navy.

Section 2: Pain/Value Proposition

Property	Value
Purpose	Empathy → "we understand your world" → positioning
Background	White (`--color-bg`)
Content	3-4 pain cards (icon + short heading + 1-line). Examples: "מורכבות מס גוברת", "חוסר וודאות רגולטורית", "ניהול פיננסי שדורש מומחיות". Below cards: 1 paragraph positioning text.
CMS-driven?	Yes — each pain card is a repeatable CMS block (icon name, title, description)

Section 3: Services Grid

Property	Value
Purpose	Navigation + clarity of offering
Background	Surface (`--color-surface`)

Property	Value
Anchor	#services
Content	H2: "השירותים שלנו" + gold underline. 6-7 cards in 2-3 column grid. Each card: outline icon (24px, navy) + H3 title + 1-line description + "לפרטים →" link.
CTA	Each card links to its service page
CMS-driven?	Yes — pulls from Services collection, ordered by sortOrder field

Section 4: Process ("איך עובדים איתנו")

Property	Value
Purpose	Transparency, reduce "how do I start?" friction
Background	White
Anchor	#process
Content	H2 + 3-4 numbered steps in a horizontal row (desktop) / vertical stack (mobile). Example steps: 1. "פגישת היכרות" 2. "אפיון צרכים והצעה" 3. "התחלת עבודה שוטפת" 4. "ליווי וייעוץ שוטף"
CMS-driven?	Yes — repeatable block (step number, title, description)

Section 5: About Teaser

Property	Value
Purpose	Credibility, personal connection
Background	Surface
Anchor	#about
Content	H2: "הכירו את המשרד". 2 partner cards side-by-side: photo placeholder + name + title + 2-line bio. Below: 1 paragraph firm story + "קראו עוד →" link to /about.
Trust signals	"דור שני של רואי חשבון" badge, credentials (רו"ח, משפטן)
CMS-driven?	Yes — pulls from Authors collection (filtered by isPartner: true)

Section 6: Knowledge Teaser

Property	Value
Purpose	Authority, SEO entry point, demonstrate expertise
Background	White
Anchor	`#knowledge`
Content	H2: "מרכז הידע" + gold underline. 3 featured article cards (title, category tag, date, 2-line excerpt). "לכל המאמרים →" link.
CMS-driven?	Yes — pulls latest 3 Articles where `isFeatured: true` or fallback to most recent

Section 7: FAQ Accordion

Property	Value
Purpose	Reduce friction, address common objections, SEO (FAQ schema)
Background	Surface
Anchor	`#faq`
Content	H2: "5-6 שאלות נפוצות." questions in expandable accordion. "לכל השאלות →" link to /faq.
CMS-driven?	Yes — pulls from FAQ collection (filtered by `showOnHomepage: true`, ordered by `sortOrder`)

Section 8: CTA Block

Property	Value
Purpose	Final conversion push
Background	Navy (`--color-primary`)
Content	H2 (white): "נשמח לעמוד לרשותכם". Subtitle (white/85%): "צרו קשר לפגישת ייעוץ ללא התחייבות". Two buttons: WhatsApp (gold CTA) + Phone (secondary outlined white).
CMS-driven?	Yes — headline, subtitle, CTA labels editable

Section 9: Footer

Property	Value
Purpose	Contact info, secondary nav, legal
Background	White with navy top-border (1px) — Option A per Brand Contract
Content	Logo (navy), address, phone, fax, email, office hours. Nav links column. Legal links (privacy, terms). Copyright.
CMS-driven?	Partially — contact details from SiteSettings, nav links hardcoded

---

C. Service Taxonomy

All titles are Hebrew-first; English slugs for URLs.

1. הנהלת חשבונות וטיפול שוטף

Slug: /services/bookkeeping **Description:** ניהול ספרים שוטף, דיווחים תקופתיים והכנת נתונים מדויקים להחלטות עסקיות. **Sub-services:**

- הנהלת חשבונות לעצמאים, חברות ומלכ"רים
- חשבות שכר והפקת תלושים
- פיקוח ובקרה על הנהלת חשבונות חיצונית
- ניהול דיווחים שוטפים לרשויות (מע"מ, ניכויים, מקדמות)

2. דוחות כספיים ושנתיים

Slug: /services/financial-reports **Description:** עריכת דוחות כספיים, הגשת דוחות שנתיים והצהרות הון בהתאם לדרישות החוק. **Sub-services:**

- ביקורת ועריכת דוחות כספיים
- הגשת דוחות שנתיים לרשויות המס
- הגשת הצהרות הון
- דוחות כספיים לבנקים ולגופים ממנים

3. ייעוץ מס ותכנון מס

Slug: /services/tax-advisory **Description:** תכנון מס אסטרטגי, ניצול הטבות והוראות שעה, ומיצוי הזדמנויות חיסכון במס. **Sub-services:**

- תכנון מס שנתי ורב-שנתי

- ייעוץ בהוראות שעה ותיקוני חקיקה
- מבנה משפטי אופטימלי (עצמאי/חברה/שותפות)
- ייעוץ מס ליחידים בעלי הכנסות גבוהות

4. מיסוי מקרקעין

Slug: /services/real-estate-tax **Description:** ליווי מקצועי בעסקאות נדל"ן — ממכירת דירה ועד פרויקטי התחדשות עירונית. **Sub-services:**

- עריכת והגשת שומות מס שבח
- בדיקה והגשת בקשות להחזר מס שבח/רכישה
- ליווי עסקאות: מכירת דירה, נכסים עסקיים, קומבינציה
- מיסוי פינוי-בינוי ותמ"א 38
- ייעוץ מס רכישה ופטורים

5. ייעוץ עסקי ופיננסי

Slug: /services/business-advisory **Description:** ליווי פיננסי לבעלי עסקים — מניהול תזרים ועד גיוס מימון ובדיקת עסקים. **Sub-services:**

- ניהול תזרים מזומנים
- הלוואות מדינה ומענקים
- בדיקת עסקים לפני רכישה (due diligence)
- ייעוץ עסקי שוטף ותכנון פיננסי

6. ייצוג מול רשויות המס

Slug: /services/tax-representation **Description:** ייצוג מקצועי מול רשות המסים — שומות, דיונים, ערעורים ותביעות. **Sub-services:**

- ניהול דיונים וייצוג בפני פקיד השומה
- ערעורים על שומות מס
- הגשת תביעות מס רכוש / קרן פיצויים
- הסדרי מס וגילוי מרצון

7. שירותים נוספים

Slug: /services/additional **Description:** שירותים משלימים לבעלי עסקים — גישור, סדנאות ומלווים מקצועיים ייחודיים. **Sub-services:**

- פתיחה וסגירת עסקים ברשויות
- שירותי גישור, בוררות ונאמנות
- סדנאות לניהול עסק תקין
- סגירת תיקים בפשיטת רגל

D. CMS Plan (Sanity)

D.1 Content Models

Article

Field	Type	Required	Notes
title	string	✅	כותרת המאמר. Max ~80 chars for SEO.
slug	slug (from title)	✅	Auto-generated, English slug, editable.
category	reference → Category	✅	Single category per article.
tags	array of reference → Tag	Optional	Multiple tags for cross-referencing.
author	reference → Author	✅	Who wrote/approved this article.
publishedAt	datetime	✅	Publication date (displayed on card).
excerpt	text (max 200 chars)	✅	Short summary for cards and meta description.
body	Portable Text (rich)	✅	Full article content. Supports: headings, bold, links, images, callout blocks, tables, embedded tools.
featuredImage	image	Optional	For OG/social sharing. Not displayed on article page by default (brand: no stock photos).
isFeatured	boolean	Optional	Show on homepage Knowledge Teaser. Default: false.
relatedServices	array of reference → Service	Optional	Links to related service pages (cross-linking).
seo	object { metaTitle, metaDescription }	Optional	Override auto-generated SEO.

Editorial note: Articles are professional circulars, Q&A, or regulatory updates. Keep them factual, direct, 400-1500 words. End with a soft CTA (contact for personal advice). Always include a disclaimer.

Guide

Field	Type	Required	Notes
title	string	✅	כותרת המדריך
slug	slug	✅	English slug.
category	reference → Category	✅	
tags	array of reference → Tag	Optional	
author	reference → Author	✅	
publishedAt	datetime	✅	
updatedAt	datetime	Optional	For evergreen content updates.
excerpt	text	✅	
body	Portable Text (rich)	✅	Extended: supports table of contents auto-generation, numbered sections, downloadable PDF link.
tableOfContents	boolean	Optional	Auto-generate TOC from H2/H3 headings. Default: true.
relatedServices	array of reference → Service	Optional	
seo	object	Optional	

Editorial note: Guides are evergreen, comprehensive (1500-4000 words). Think "complete guide to מיסוי מקרקעין לבעל דירה". Update the updatedAt field when content is refreshed.

Category

Field	Type	Required	Notes
title	string	✅	Hebrew display name (e.g., "מס הכנסה")
slug	slug	✅	English (e.g., income-tax)
description	text	Optional	1-2 sentences for the category page header.
sortOrder	number	Optional	Controls display order in filter bar.

Tag

Field	Type	Required	Notes
title	string	✅	Hebrew display (e.g., "חשבונית ישראל")
slug	slug	✅	English (e.g., invoice-israel)

Service

Field	Type	Required	Notes
title	string	✅	Hebrew title (e.g., "מיסוי מקרקעין")
slug	slug	✅	English.
shortDescription	text (max 120 chars)	✅	For services grid card on homepage.
icon	string	✅	Icon name from Lucide/Phosphor library.
body	Portable Text	✅	Full service page content: what we do, who it's for, sub-services, outcomes.
subServices	array of objects { title, description }	Optional	Bulleted sub-services list.
relatedArticles	array of reference → Article	Optional	Cross-linked knowledge center content.
ctaText	string	Optional	Custom CTA label. Default: "צרו קשר לפרטים"
sortOrder	number	✅	Controls display order on services hub and homepage grid.
seo	object	Optional	

Author

Field	Type	Required	Notes
name	string	✅	e.g., "אבי ביטן, רו"ח"
slug	slug	✅	
role	string	✅	e.g., "שותף מייסד"
credentials	string	Optional	e.g., "רו"ח, משפטן, יועץ פיננסי"
bio	text (max 300 chars)	✅	Short bio for About page and article bylines.
photo	image	Optional	Placeholder if not provided.
isPartner	boolean	✅	Controls display on homepage About Teaser.

Testimonial

Field	Type	Required	Notes
quote	text	✅	The testimonial text.
authorName	string	✅	Client name (or "בעל עסק בתחום ___" for anonymity).
authorRole	string	Optional	e.g., "מנכ"ל, חברת XYZ"
isActive	boolean	✅	Default: false. Activate when ready to display.

Editorial note: This collection ships empty. Build the UI slot; activate later when testimonials are collected.

FAQ

Field	Type	Required	Notes
question	string	✅	The question in Hebrew.
answer	Portable Text	✅	Rich text answer (supports links, bold).
topic	string	✅	Grouping label for the /faq page (e.g., "כללי", "מס הכנסה", "תהליך עבודה").
showOnHomepage	boolean	Optional	Default: false.
sortOrder	number	✅	

SiteSettings (singleton)

Field	Type	Notes
firmName	string	"ביטן את ביטן — רואי חשבון"
phone	string	"03-5174295"
whatsapp	string	"+972527221111"
fax	string	"03-5174298"
email	string	"office@bitancpa.com"
address	text	"הרכבת 58, מגדל אלקטרה סיטי, קומה 11, תל אביב"
officeHours	string	"ראשון-חמישי 08:30-17:00"
heroHeadline	string	H1 text for homepage hero
heroSubtitle	text	Subtitle text
heroTrustLine	string	Micro trust line below CTAs
ctaWhatsappLabel	string	Default: "שלחו הודעה בוואטסאפ"
ctaPhoneLabel	string	Default: "חייגו אלינו"
footerDisclaimer	text	Legal disclaimer text
socialLinks	object { facebook, linkedin }	Optional
ogImage	image	Default OG image for pages without a specific image

D.2 Custom Portable Text Blocks

Extend Sanity's Portable Text editor with these custom block types:

Block	Purpose	Fields
callout	"חשוב לדעת" info box	title (optional), body (text), type (info/warning)
financialTable	Formatted table component	rows (array of arrays), hasHeader (boolean)
ctaBlock	Inline CTA within article	headline, body, buttonLabel, buttonLink
ltrSpan	Wrap LTR content (numbers, English)	text, auto-wraps in

D.3 Editorial Workflow + Roles

Workflow:

```
Draft → In Review → Published
```

- **Draft:** Editor creates/edits content. Not visible on site.
- **In Review:** Editor marks ready. Partner (Avi/Ron) reviews.
- **Published:** Approved and live. Only partners can publish.

Roles:

Person	Sanity Role	Permissions
Avi Bitan	Administrator	Full access: create, edit, review, publish, settings, schema
Ron Bitan	Administrator	Same as Avi
Shai	Editor	Create, edit, submit for review. Cannot publish or edit SiteSettings.
Heli	Editor	Same as Shai
Project owner	Developer	Full access + deploy triggers

Implementation: Use Sanity's document-level actions plugin to enforce the workflow. Editors see "Submit for Review" instead of "Publish". Administrators see both.

E. Design System Application

E.1 Source of Truth

The uploaded **Website Brand Contract v1.0**, **Design System Summary**, and **bitan-tokens.css** are the single source of truth. No deviations without explicit approval.

E.2 Key Component → Token Mapping

Component	Colors	Typography	Spacing	Notes
Navbar	bg: `--color-bg`, text: `--color-primary`, active: gold underline	`--text-nav` / 500	height: 72px desktop, 56px mobile	Sticky, shadow on scroll. Logo right, hamburger left (mobile).
Hero	bg: `--color-primary`, text: white, CTA gold: `--color-btn-cta`	H1: `--text-h1` / 700, subtitle: `--text-body-lg` / 400	padding: `--space-9` vertical	Gold underline 3px, ~120px width.

Component	Colors	Typography	Spacing	Notes
Cards (service/article)	bg: `--color-bg`, border: `--color-border`, hover shadow: `--shadow-md`	title: `--text-h3` / 600, body: `--text-body` / 400	padding: `--space-5`, radius: `--radius-lg`	Hover: translateY(-2px) + shadow deepen.
Buttons — Primary	bg: `--color-btn-primary`, text: white	`--text-nav` / 500	padding: 12px 32px, radius: `--radius-md`	Hover: `--color-btn-primary-hover`. Focus: gold ring.
Buttons — Secondary	bg: transparent, border: 1.5px `--color-primary`	Same	Same	Hover: surface bg. Active: inverts.
Buttons — CTA (Gold)	bg: `--color-btn-cta`, text: `--color-primary`	Same	Same	Max 1 per viewport. Hover: `--color-btn-cta-hover`.
Callout Box	bg: `--color-callout-bg`, border-right: 3px `--color-primary`	Body text, optional bold title	padding: 20px 24px, radius: `--radius-md`	Navy outline icon (20px) top-right.
Tags/Pills	bg: `--color-surface`, text: `--color-text-muted`, active: navy/white	`--text-caption` / 400	padding: 4px 12px, radius: `--radius-pill`	Used in article cards and filter bar.
Tables	header: `--color-primary` + white text, zebra: white / surface	Body text	cell padding: `--space-3` / `--space-4`	Radius on outer container. Numbers in `dir="ltr"` spans.
Footer	bg: `--color-bg`, top border: 1px `--color-border`	Body + caption sizes	padding: `--space-7` vertical	Option A (white). Contact details, nav, copyright.
Accordion (FAQ)	bg: `--color-bg`, border: `--color-border`	Question: `--text-body-lg` / 600, answer: `--text-body` / 400	padding: `--space-4`, gap: `--space-2`	Subtle expand/collapse animation (max 250ms).

E.3 Iconography

- **Library:** Lucide React (outline variants only)
- **Stroke:** 1.5-2px
- **Color:** `--color-primary` default, white on dark backgrounds
- **Sizes:** 16px inline, 20px nav/UI, 24px cards, 32px hero

- **Gold icons:** Never. Gold is lines/borders only.

E.4 RTL Rules (Enforced in Code)

Rule	Implementation
`<html lang="he" dir="rtl">`	In `_document.tsx` or root layout
All text right-aligned by default	Tailwind RTL plugin + base CSS
Logo: top-right; Hamburger: top-left	Navbar component
Numbers, dates, ₪, emails, phones, English terms	Wrap in `<span dir="ltr">` — create a reusable `<LTR>` component
Lists: marker on right side	CSS `list-style-position`
Tables: first column = rightmost	RTL table flow, `dir="ltr"` on number cells
Form labels: right-aligned above inputs	Form component
Submit button: left side (flow-end)	Form component
Breadcrumbs: right-to-left with `←` separator	Not in V1, but spec'd for future
No LTR-first design ported to RTL	All components designed RTL-native

E.5 Color Ratio Enforcement

Quality gate per viewport:

- Navy: 60-70% of visual weight
- Gold: maximum 5-10% (thin lines, underlines, focus rings, max 1 gold CTA button)
- White/off-white: 20-30%
- Gold CTA button: max 1 per viewport

F. SEO + Analytics Spec

F.1 SEO Foundations

Metadata (every page):

- `<title>`: `{pageTitle} | רואי חשבון — ביטן את ביטן` (max 60 chars)
- `<meta name="description">`: Unique per page (max 155 chars), pulled from CMS `seo.metaDescription` or auto-generated from `excerpt`
- `<meta name="robots" content="index, follow">`

- `<link rel="canonical" href="{fullURL}">`
- `<html lang="he" dir="rtl">`

OpenGraph (every page):

```html
<meta property="og:title" content="{pageTitle}">
<meta property="og:description" content="{description}">
<meta property="og:image" content="{ogImage or defaultOGImage}">
<meta property="og:url" content="{canonicalURL}">
<meta property="og:type" content="website">  <!-- or "article" for articles -->
<meta property="og:locale" content="he_IL">
```

Schema.org:

Page	Schema Type	Key Fields
Homepage	`Organization`	name, url, logo, address, phone, sameAs (social)
Article	`Article`	headline, author, datePublished, dateModified, publisher
Guide	`Article`	Same as Article
FAQ page	`FAQPage`	`mainEntity` array of Question/Answer pairs
Service pages	`Service` (or `ProfessionalService`)	name, description, provider

Technical SEO:

- `sitemap.xml`: Auto-generated by Next.js, includes all published pages/articles
- `robots.txt`: Allow all, disallow `/api/`, `/studio/`
- Clean URLs: No trailing slashes, no query params for content
- Image alt text: Required field in CMS for all images
- `font-display: swap` for Heebo

F.2 Internal Linking Plan

From	To	Mechanism
Service page	Related articles in Knowledge Center	`relatedArticles` field in Service schema → rendered as "מאמרים קשורים" section at bottom of service page
Article	Related service(s)	`relatedServices` field → rendered as callout: "שירות קשור: [service name]"

From	To	Mechanism
Article	Other articles (same category)	Auto-generated "מאמרים נוספים בנושא" section (3 cards, same category, different article)
Homepage services grid	Individual service pages	Direct link per card
Homepage knowledge teaser	Individual articles + Knowledge hub	Card links + "לכל המאמרים" link
FAQ answers	Relevant service or article pages	Inline links within answer text (manual, by editor)

F.3 GA4 Events

Event Name	Trigger	Parameters
`whatsapp_click`	Click on any WhatsApp CTA	`location` (hero, footer, cta_block, article), `page_path`
`phone_click`	Click on any phone CTA	`location`, `page_path`
`form_submit`	Contact form submitted	`page_path`
`scroll_depth`	25%, 50%, 75%, 100% scroll	`percent`, `page_path` (optional — enable if needed)
`service_card_click`	Click on service card (homepage)	`service_slug`
`article_click`	Click on article card	`article_slug`, `location` (homepage, knowledge_hub, related)
`faq_expand`	Expand FAQ accordion item	`question_text` (truncated)

Implementation: Use Next.js `<Script>` for GA4 tag. Custom event hooks via a `useAnalytics()` hook or direct `gtag()` calls.

F.4 Redirect Strategy

Decision: Fresh start. No comprehensive 301 map from the old WordPress site.

Minimal redirects (recommended, implement only if old URLs have measurable backlinks):

Old Pattern	New Target	Rationale
`/אודות/`	`/about`	About page has potential backlinks
`/category/השירותים-שלנו/`	`/services`	Services hub
`/category/מיסוי-מקרקעין/`	`/services/real-estate-tax`	High-value category
`/trafffic/` (calculator)	`/knowledge/tools`	If calculator gets organic traffic

Action: Before launch, check Google Search Console for the old site's top 10-20 pages by clicks. Redirect only those. Everything else returns 404 or a custom "page moved" page with a link to the new homepage.

G. Build Plan for Claude Code

Milestone Structure

Each milestone is a PR-sized increment, deployable to Vercel staging.

M1: Project Scaffold + Design Tokens

Scope: Next.js project init, Tailwind config with custom tokens, Heebo font loading, RTL setup, base layout shell. **Acceptance criteria:**

- `next dev` runs without errors
- `<html lang="he" dir="rtl">` set
- Tailwind config extends all brand tokens (colors, spacing, fonts, radii, shadows)
- `bitan-tokens.css` variables available globally
- Heebo loads with `font-display: swap`
- Base layout: header placeholder + main + footer placeholder
- Deployed to Vercel staging (blank page, correct RTL/font)

Demo: Empty page with correct font, RTL direction, and navy text visible.

M2: Sanity CMS Setup + Content Models

Scope: Sanity project init, all schemas from Section D, Sanity Studio configured with Hebrew labels. **Acceptance criteria:**

- All 8 schemas deployed to Sanity (Article, Guide, Category, Tag, Service, Author, FAQ, SiteSettings, Testimonial)

- Sanity Studio accessible at `/studio` (or separate subdomain)
- Studio labels in Hebrew where possible
- SiteSettings singleton seeded with firm contact info
- 7 Category documents created
- 2 Author documents created (Avi, Ron — placeholder photos)
- 7 Service documents created with titles and short descriptions
- Draft/publish workflow configured

Demo: Editor can log into Sanity Studio and create a test article.

M3: Core Components Library

Scope: Build all reusable UI components per Brand Contract. **Acceptance criteria:**

- `Button` (Primary, Secondary, Ghost, CTA Gold) with all states
- `Card` (Article card, Service card) with hover effects
- `CalloutBox` (info/warning variants)
- `Tag` / `TagPill` (active/inactive)
- `Accordion` (for FAQ)
- `SectionHeader` (H2 + gold underline)
- `LTR` wrapper component for mixed-direction content
- `WhatsAppCTA` and `PhoneCTA` reusable components with analytics hooks
- All components use design tokens, no hardcoded colors
- Storybook or a `/dev` page showing all components (optional but recommended)

Demo: Component showcase page showing all variants.

M4: Navbar + Footer

Scope: Sticky navbar with logo, nav links, mobile hamburger. Footer with contact info. **Acceptance criteria:**

- Navbar: logo right, 5 nav links, sticky with shadow on scroll
- Active page: gold underline
- Mobile: hamburger left, slide-in menu from right
- Logo: extracted SVG (navy on transparent) or fallback PNG
- Footer: full contact details from SiteSettings, nav links, disclaimer, copyright
- Phone and WhatsApp links in footer with `tel:` and `https://wa.me/` hrefs
- WhatsApp/phone clicks fire GA4 events

Demo: Navigate between placeholder pages, verify sticky nav, mobile menu, footer links.

M5: Homepage (Full Scroll Journey)

Scope: All 9 homepage sections from Section B, connected to Sanity. **Acceptance criteria:**

- Hero: headline/subtitle from SiteSettings, WhatsApp + phone CTAs, gold underline
- Pain/Value: CMS-driven cards (or hardcoded for V1 with CMS flag)
- Services Grid: pulls from Services collection, 2-3 column responsive grid
- Process: numbered steps from CMS
- About Teaser: pulls partner Authors, photo placeholders
- Knowledge Teaser: pulls 3 featured/latest articles (shows placeholder if <3 exist)
- FAQ Accordion: pulls homepage FAQs, expandable
- CTA Block: navy bg, WhatsApp + phone
- All sections responsive (375px → 1440px)
- Scroll anchors work (`/#services`, etc.)
- GA4 events firing on WhatsApp/phone clicks

Demo: Full homepage scroll-through on desktop and mobile.

M6: Service Pages

Scope: Services hub page + 7 individual service pages. **Acceptance criteria:**

- Hub (`/services`): grid of service cards
- Individual service page: H1 + body content from Sanity, sub-services list, related articles section (empty ok), CTA block at bottom
- Breadcrumb: Home > שירותים > [Service Name]
- CMS-editable: all content pulled from Service documents
- Responsive layout

Demo: Navigate from homepage → services hub → individual service → CTA.

M7: Knowledge Center (Hub + Article + Guide)

Scope: Knowledge hub with filtering, individual article page, individual guide page. **Acceptance criteria:**

- Hub (`/knowledge`): grid of article cards, category filter bar (horizontal pills), search input, pagination (or infinite scroll)
- Category pages (`/knowledge/category/[slug]`): filtered view
- Article page (`/knowledge/[slug]`): H1, date, author byline, category tag, body (Portable Text rendered), related articles, CTA block, disclaimer
- Guide page (`/knowledge/guides/[slug]`): same as article + TOC sidebar (auto-generated from headings)
- Custom Portable Text renderers: callout, financial table, CTA block, LTR span
- Article cards: title, category tag, date, excerpt (2-3 lines)
- OG meta tags populated per article

Demo: Browse knowledge center, filter by category, read an article, see related content.

M8: FAQ + Contact + Legal Pages

Scope: FAQ page, Contact page with form, Privacy/Terms pages. **Acceptance criteria:**

- FAQ (`/faq`): grouped by topic, accordion, FAQ schema.org markup
- Contact (`/contact`): WhatsApp button (primary), phone button, short form (name, phone, topic dropdown, message), address with Google Maps embed or link, office hours
- Form submission: sends to email (via API route or external service like Formspree/Resend)
- `form_submit` GA4 event on successful submission
- Privacy + Terms: basic CMS pages or static markdown
- Contact details pulled from SiteSettings

Demo: Submit test form, verify email delivery, verify FAQ schema in Google Rich Results Test.

M9: About Page

Scope: Full About page with firm story, partner bios, values. **Acceptance criteria:**

- Partner bios section: photo (placeholder), name, credentials, bio — pulled from Authors (isPartner)
- Firm story section: CMS-driven body text
- Values/principles section (optional, can be hardcoded for V1)
- CTA block at bottom
- Responsive layout

Demo: About page with placeholder partner photos, firm narrative, CTA.

M10: SEO + Analytics + Performance

Scope: All SEO foundations, GA4 integration, performance optimization. **Acceptance criteria:**

- GA4 tag installed via Next.js Script
- All custom events firing (whatsapp_click, phone_click, form_submit, service_card_click, article_click)
- Schema.org: Organization (homepage), Article (articles/guides), FAQPage (faq), Service (service pages)
- `sitemap.xml` auto-generated
- `robots.txt` configured
- OpenGraph meta on all pages
- Lighthouse score: Performance ≥90, Accessibility ≥95, SEO ≥95
- Image optimization: WebP/AVIF, lazy loading
- Font optimization: Heebo preloaded, `font-display: swap`

Demo: Lighthouse audit results, GA4 real-time event verification, Google Rich Results Test.

M11: Responsive QA + RTL Audit

Scope: Full cross-device testing, RTL compliance check. **Acceptance criteria:**

- Tested at: 375px (iPhone SE), 390px (iPhone 14), 768px (iPad), 1024px (iPad landscape), 1440px (desktop)
- RTL audit checklist (every page):
  - ☐ No flipped parentheses
  - ☐ Numbers/dates/currency in LTR spans
  - ☐ Phone/email/URLs in LTR spans
  - ☐ Lists: markers on right
  - ☐ Tables: correct column order
  - ☐ Gold never exceeds 10% of viewport
  - ☐ Focus rings visible on all interactive elements
- WCAG AA: contrast ratios, focus management, alt text, keyboard navigation
- Mobile: sticky CTA bar (WhatsApp + Phone) at bottom of viewport — subtle, not obstructive

Demo: Screen recordings of mobile and desktop, RTL audit checklist signed off.

M12: Content Seeding + Launch Prep

Scope: Seed initial content, configure production environment, final pre-launch checks. **Acceptance criteria:**

- Seed content in Sanity:

    - 7 service pages (full content)
    - 2-3 articles (from example PDFs: הוראת שעה, חוזר מקצועי פטור ממס)
    - 5-8 FAQ items
    - SiteSettings fully populated
    - 2 Author profiles
- Vercel production deployment configured
- Domain pointed (bitancpa.com) or staging URL shared for client review
- Minimal redirects implemented (if old site has measurable traffic)
- Social preview (OG image) tested
- Google Search Console submitted (sitemap)
- Final Lighthouse audit ≥90/95/95

Demo: Full site walkthrough with real content, client sign-off checklist.

H. Open Questions (Blocking Execution)

#	Question	Impact	Default if No Answer
1	**Hero headline copy** — what is the firm's preferred value proposition in 6-10 words?	Homepage hero H1	"המומחים הפיננסיים של העסק שלכם" (editable in CMS, can change post-launch)
2	**Office hours** — what are the firm's official working hours?	Contact page, schema	ראשון-חמישי 08:30-17:00
3	**Logo SVG** — has the vector file been extracted from logo.pdf, or should Claude Code handle extraction during M1?	Navbar, favicon, OG image	Claude Code extracts from logo.pdf during M1. Fallback: use provided WebP.
4	**Form submission target** — where should contact form emails go? Single inbox (office@bitancpa.com) or multiple recipients?	Contact form, M8	office@bitancpa.com
5	**Google Maps** — should the contact page embed a Google Map of the office, or just link to Waze/Google Maps?	Contact page UX	Link to Google Maps + Waze link (no embed — saves page weight)
6	**Disclaimer text** — exact wording of the legal disclaimer for the footer and articles?	Legal compliance	"המידע באתר הינו כללי בלבד ואינו מהווה תחליף לייעוץ מקצועי פרטני. ביטן את ביטן — רואי חשבון" (editable in SiteSettings)

#	Question	Impact	Default if No Answer
7	**Day-1 content** — can the 2 example PDFs (הוראת שעה + חוזר מקצועי) be converted to web articles for launch?	Knowledge Center not empty at launch	Yes — convert both during M12 content seeding

Assumption log (no answer needed, proceeding with these):

- Vercel for hosting (free tier sufficient for V1)
- Sanity free plan sufficient (3 users, 100K API requests/mo)
- No analytics beyond GA4 in V1 (no Hotjar, no Mixpanel)
- No A/B testing in V1
- Mobile sticky CTA bar at bottom (WhatsApp + Phone) — subtle, can be toggled off
- Testimonials section ships empty, slot ready
- No blog comments in V1
- No newsletter/email subscription in V1
- Cookie consent banner not required for GA4 only (Israeli law does not mandate it for analytics cookies — but add a simple notice if client prefers)

Approval Checklist

Before handing off to Claude Code, confirm each:

#	Item	Status
1	Sitemap + URL map approved	☐
2	Homepage scroll journey sections approved	☐
3	Service taxonomy (7 services) approved	☐
4	CMS schemas reviewed (no missing fields)	☐
5	Design system tokens confirmed (no changes to Brand Contract)	☐
6	SEO approach (fresh start, minimal redirects) approved	☐
7	Build milestones (M1-M12) approved	☐
8	WhatsApp number confirmed: +972 52-722-1111	☐
9	Open questions answered (or defaults accepted)	☐
10	Budget/timeline expectations set for 12-milestone build	☐

Upon approval, the next deliverable is: Claude Code builder prompts for M1 (Project Scaffold + Design Tokens).
